

Decorative Arts Gallery KS3 & 4

Choose 2 of the designs or patterns which you find interesting.
Make a detailed drawing of each. Write down any information about who made it, where, when and how. Include what the item is made of and how it would be used.

Think about the following questions. Do similar objects have similar patterns? Are some materials better for creating certain shapes or patterns? By having such a pattern, how is the object altered or improved?
