

EVENTS FOR SCHOOLS AT NORWICH CASTLE:

KS2 Marvellous Medieval Maths

Essential information

Maximum group size 80, £5 per student, 10am until 2pm

The event

Important noble guests are visiting the Castle for a feast and the staff are hurrying to get ready! Help the household to solve mathematical problems as part of their preparations and use maths skills in a variety of historical situations. Put your maths skills—including measures, geometry, statistics and number—to the test. Plus you can sort, handle and discuss real museum objects.

Calculate costs for a feast, design symmetrical banners with a weaver, and use estimating and measuring skills to plan decorations for the Castle Keep.

Aims and learning outcomes:

- To give an opportunity for children to apply maths skills outside the classroom
- To solve problems within a context.
- To develop pupils' ability to work collaboratively to solve problems.
- To practise and reinforce statistics, geometry and number.

How to book:

Advance booking is essential. To book, please call 01603 493636 or email norwichcastle.bookings@norfolk.gov.uk.
